

I love my XM radio. Regular radio channels and station play the same 10 songs over and over again. With XM radio, I have thousands of choices to listen to. I listen to the news and traffic reports EVERY morning on my drive to work. The regular radio station only have mostly games to play in the morning. Big deal, who cares who wins what. I want to know what is happen in the world. Please don't stop a good thing.

Shawn
